

Elvstrøm Sails A/S seek Sailmakers for the Upcoming Season

We are busy making sails for our many clients and need skilled sailmakers for our production in Aabenraa.

At our factory in Aabenraa we build high-performance, high-tech, and EPEX sails for sailors around the world. Quality is paramount and our new employees must therefore have good craft skills, tidiness, and a broad experience in the manufacture of sails.

We are contract manufacturer and thus we need flexibility in our production. We prefer candidates with as many skills in sailmaking as possible, so our new employees can take on assignments where we are most busy.

Elvstrøm Sails offer some of the best framework for sail manufacturing in the world, with very modern production facilities, welfare facilities, machinery, and equipment.

We employ staff with many different nationalities. It is not a requirement that applicants are fluent in Danish in speech and writing, but if you do not speak Danish, it is important that you can either English or German at a reasonable level.

Application and questions

Please send you application, CV and other relevant documents to Elvstrøm Sails A/S, Paul Elvstrøms Vej 4, DK-6200 Aabenraa – and mark the envelop "Sailmaker", or send your application electronically to taj@elvstromsails.com, with "Sailmaker" as Subject.

If you have any questions in regards to the positions as Sailmaker, please contact Production Manager, Tage Jensen, phone +45 2284 4800 or e-mail taj@elvstromsails.com.
